- To speak with a technician call 631-531-8888.

Two Partner/ Plus Features:

Display Type	Paper overlay displaying a photograph or line drawing. Space for lightweight texture symbol or object behind picture on Velcro platform.
Dimensions	Picture size 3.5" – 4" per unit. L 11 ¼" , W 6 ¾", D 2"
Weight	2 lbs.
Type of Voice Output	Recorded speech for single words and phrases. Message length of 30 seconds.
Language System	Simple language arrangement for beginning communicators. Often pairs objects on the Velcro platform with a picture on the slanted surface to reinforce the relationship between the object and its two-dimensional representation. Partner/Plus devices can be connected to one another to form a multi-message communicator.
Access Method	Direct selection with light touch. Has lower profile in front for encouraging activation with variety of movements of the hand. One input jack for external switches, and one output jack for connection to toys and appliances.
Battery	Three AA Batteries
