

Mounting Assessment Notes Form

Quote Request Submitted: _____

Name:

Type and brand of positioning equipment (wheelchair/stroller/activity chair):

- Manual
- Power
- Tilt
- Tray
- Tubing diameter and shape _____

Type of mounting equipment they already own:

Type of mount being requested:

- Desk Mount/Table Stand
- Wheelchair Mount
- Rolling Floor Mount
- Switch Mounting Kit for Desk/Table
- Switch Mounting Kit for Wheelchair

List the type of device that needs to be mounted: _____

List any secondary devices that need to be mounted: _____

To ensure that the mounting system is compatible with the wheelchair and AAC device:

- Take photo of the tubing on both sides of the chair. Include close ups and extended views.
- Take photo of where you would like the device to be located once mounted.
- Take tubing diameter and open space measurements. Use the back of this form to make drawings of wheelchair tubing to use as a reference. Take measurements of anything you would like the mounting company to note, such as clearance of a wheelchair tray or offset to clear wheelchair attachments.
- Send photos, measurements, and documentation to mounting company, along with any company worksheets they require, and request a quote for the mount/s.
- Include the quote in the report for DDD as an attachment.

Mounting Systems Company Resources:

Daessy is located online at <http://www.daessy.com/> and you can email them at daessy@daessy.com. They have a basic worksheet at the end of their pricelist that can be found at <http://www.daessy.com/PDF/pricelists/USD-dms-2015.pdf>.
