Training Room 2
Phoenix, AZ 85043**

Lunch will be provided

August 27, 2014 10:00 AM - 120 minutes

Title: Standing Wheelchairs-Examining the Evidence

Description: Standing is an intervention that has many known health benefits. In addition, the physiological benefits of weight bearing (standing) and the increase in functional performance that standing provides makes it a desirable feature on a wheelchair base. This session will look at the research supporting standing wheelchairs including successful case studies of people using standing wheelchairs (manual and power). Additionally, funding challenges will be discussed and strategies to overcome these challenges will be shared.

Category: Rehab Technology

Presenter: Casey Emery OTD, OTR/L

Territory Sales Manager Permobil USA

August 27, 2014 1:00pm CDT - 30 minutes

Title: Alternative Access to Mobile Devices

Description: Tablet technology and mobile devices are everywhere! While accessing these devices is simple for some - some individuals need alternative access solutions. This session will focus on accessibility features (built-in and available for purchase) as well as an array of hardware solutions to increase access to these everyday electronic tools.

Category: Assistive Technology

Presenter: Mark Dees Adaptive Technology Consultant

August 27, 2014 1:30pm CDT - 90 minutes

Title: Mobility Solutions

Description: Mobility solutions for vehicles. With our focus on the ever changing world of the mobility industry and with so many different products on the market, finding the best solution isn't always that easy. From van conversion to mobility lifts, hand controls to rehab driving evaluations. This course will answer key questions and serve as a valuable resource for the professional who works with all wheelchair users.
