Implementation Strategies for Eye Gaze Users

Katelyn Oeser SLP

Brenda Del Monte SLP

They are doing it with their eyes!

Why do we put kiddos on eye gaze?

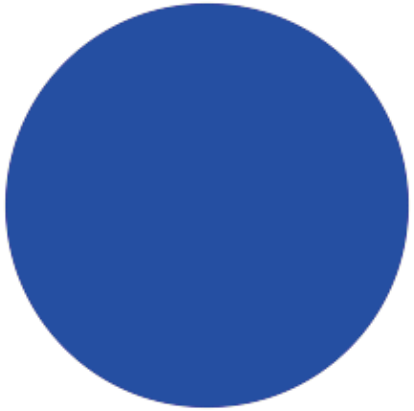
- Vision is a relative strength
- Direct Select with a pointer finger is not reliable
- Eye gaze can be better than Switches

“But we have switches……”

- Sophia video

Set up for success

- Visual feedback for dwell time
  - Pointer
  - Highlight
  - Shrinking dot
  - Clock dial



What does is look like on the ACCENT?

Let’s take a look…

- Zidaan Video

What does the Tobii eye gaze look like?

Let’s take a look….

- Zidaan Video

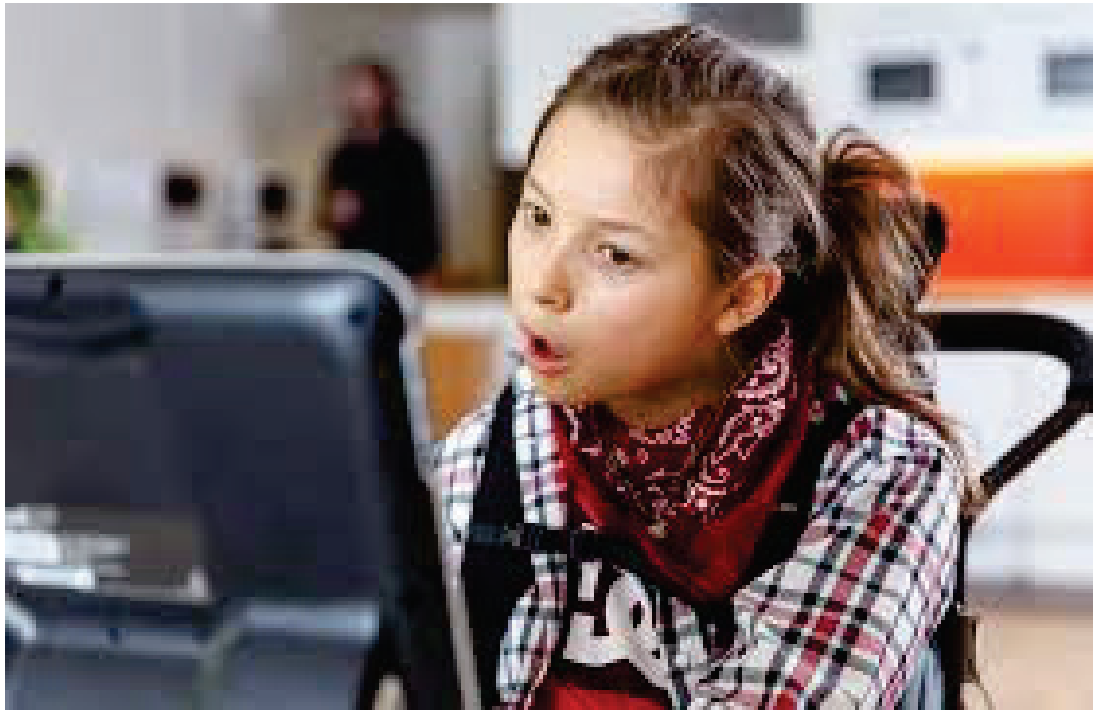
Positioning

- Promotes head stability
- Fosters a learning level of alertness
- This is not the time to work on the positioning you “hope” to have

Check this out…

Distance

- 18-22 inches
- Keep with in mind when deciding size of buttons



Expanding field activities could help

- Camden Video

What about glasses?

Building eye gaze endurance

Look to Learn

Sensory EyeFX

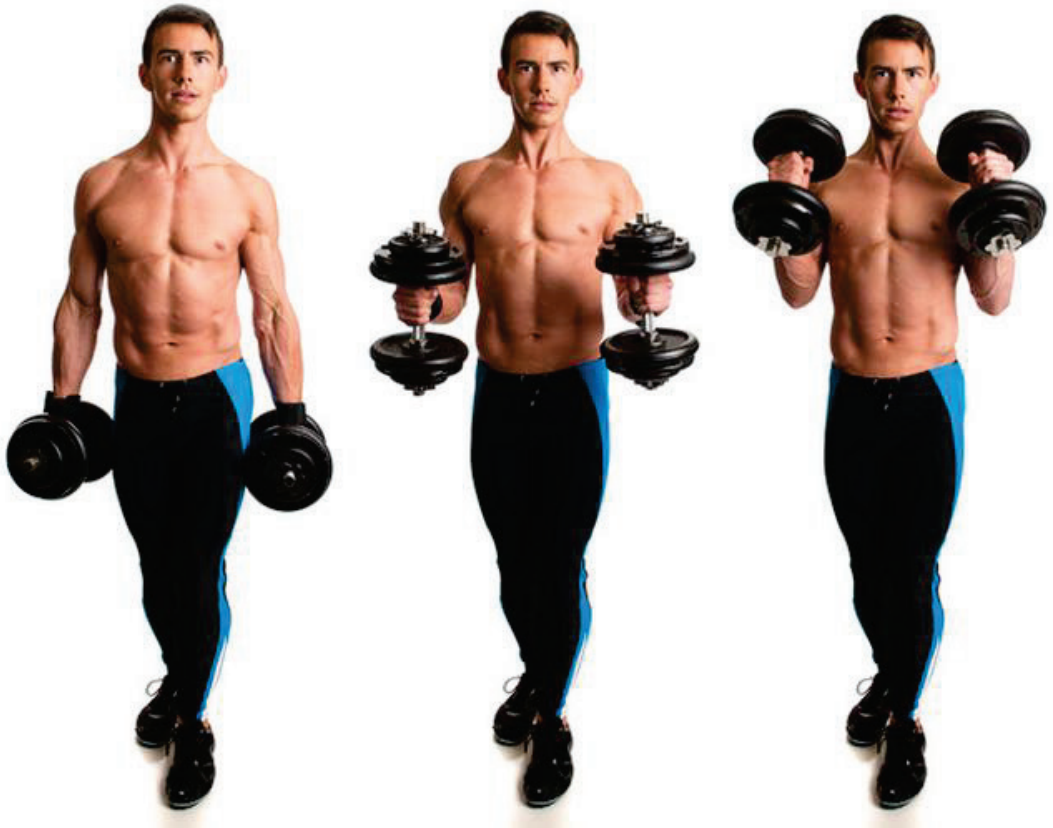
Timocco

A Bigger Smile Every Day

She one years old……

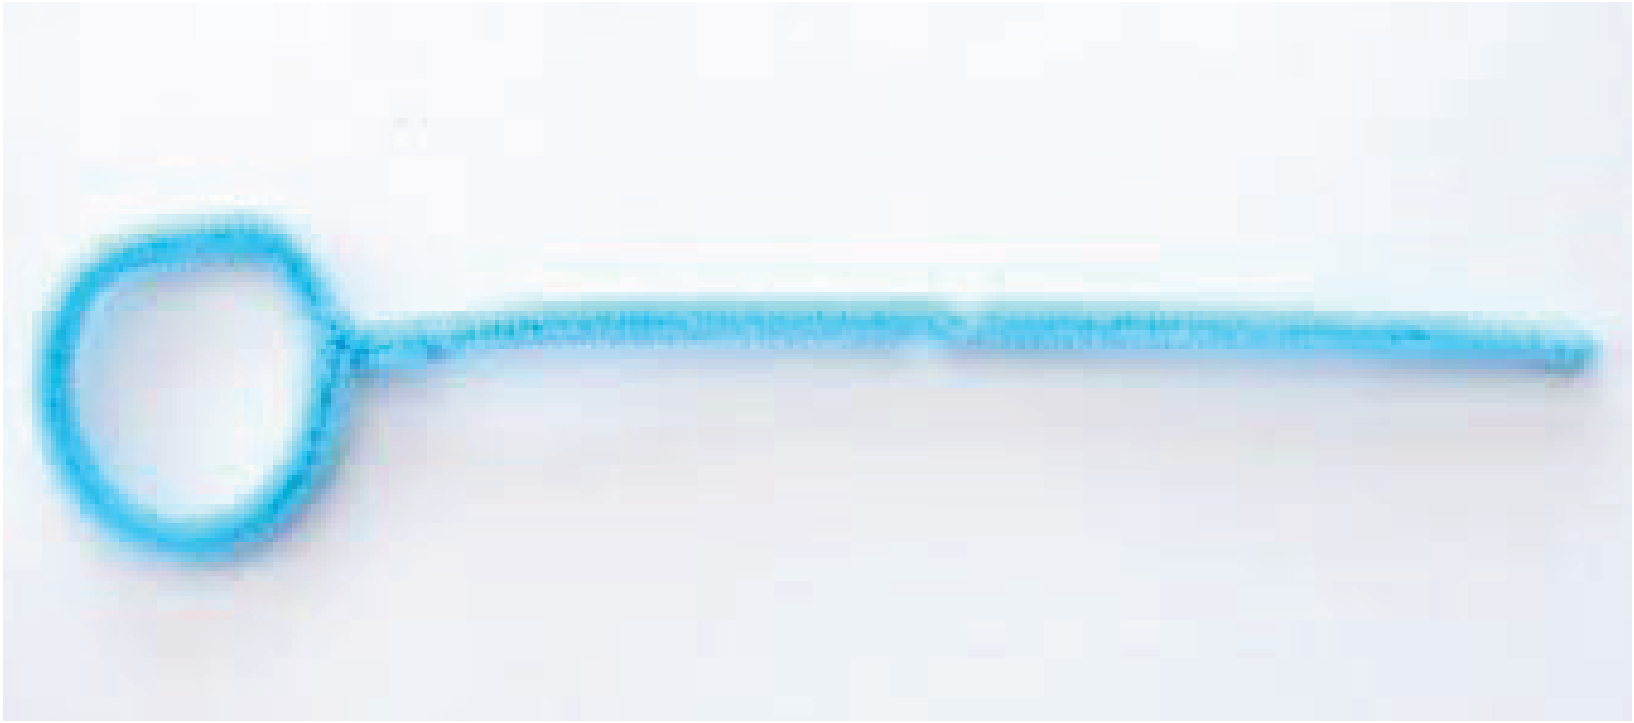
- Kiera Video

Its like weightlifting

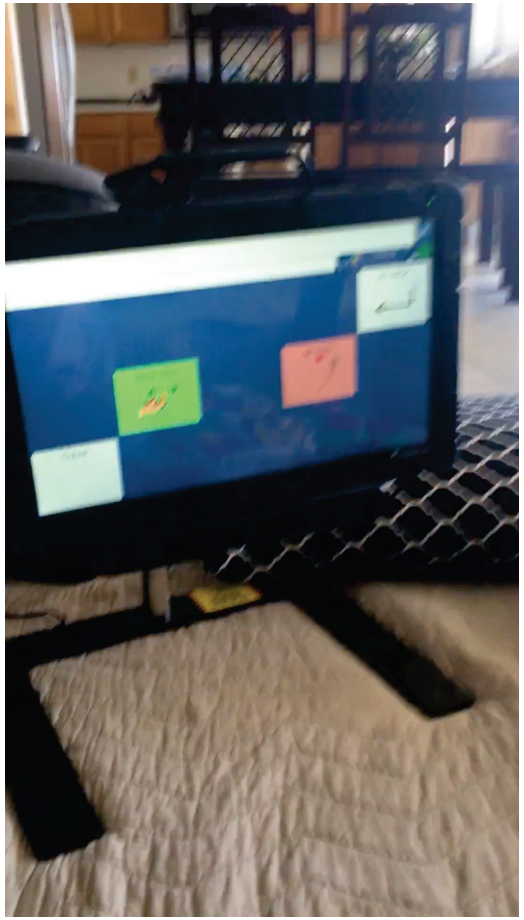


Near and Far

Magic Wand

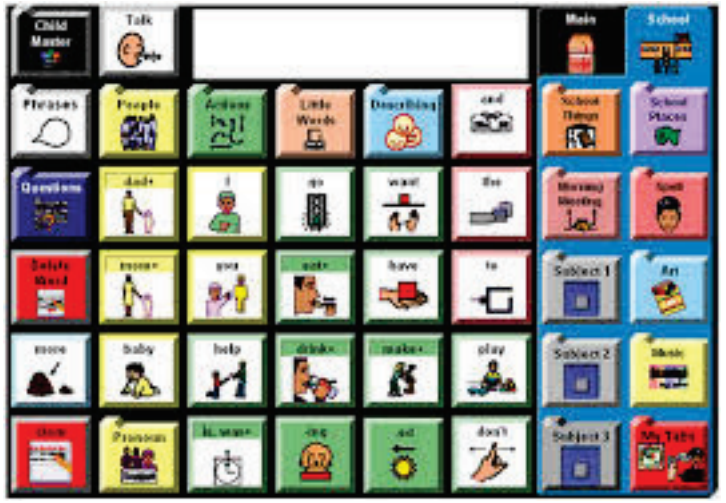


Let’s Take a Look…



It’s still just a language system

- Choice Making
- Social Language – phrase based language
- Core Words
- Acceptance and Rejection
- Don’t be afraid of two choice contrasting pages



Let’s start the very beginning….

- Tobii Two Choice

Navigation

Trust me…..they meant to say that!

Teaching not Testing

Model Model Model

- Nanie Video

How do you progress?

- Johnny video
